P/N: 48MMTSTDBE

 ST/ST duplex composite adapter MM SCD footprint, with black dust cap
 Suitable for OM1/OM2/OM3/OM4

Applications

ST/ST adapters are considered to be one of the most common inter-connection devices in fiber optic networking. The most efficient duplex version allows for example 48 connections within the given space of 1U front plate of a patch panel. In the present version, the ST/ST duplex adapter for Multimode (MM) applications features a composite body with 2 screws, including one PhBr Phosphor Bronze. It allows loading ST adapters on SC footprint panels.
