

# ASBNEP1301

Communication pack 375x250mm CAT6A

## Benefits

- Comply with French standard R111-14 of August 03 2016\*
- Extensible modular 375x250mm box with 10 ports panel including F support for the antenna input, expandable to 20 sockets if adding 2nd RJ45 panel
- Easy installation on GTL sheath or surface installation
- An additional fixing module can be added

## DESCRIPTION

The communication pack ASBNEP1301 375x250 of the Axitronic brand perfectly meets the requirements of the new residential standard \* (decree of August 3, 2016 art R111-14). Its modularity and aesthetics match all the requirements of residential environments.

Equipped with 4 connectors CAT6A RJ45 (1), a keystone format coaxial socket (3) and supplied with a 40 cm RJ45 / F balun cord (8), it will respond to the vast majority of residential applications . Its 10 ports panel (2) allow to extend the configuration up to 20 communication sockets with the addition of a second panel. A 100 mm area is intended to accommodate a DTIO (not supplied) on the Din Rail (6).

\* Comply with the new standard if the additional fixing module (ref : AXIZA) is added.

## ENVIRONNEMENTAL PROPERTIES
