

## INFORMATIONS PRODUITS

### Applications

- Microphone cable – audio analog balanced links for audio equipments.
- Static use

### Electrical Performances

- Tension test (50 Hz / 1 mn) : **1500 V**
- Max. operating tension : **50 / 75 v AC/DC**
- Conductor Electrical Resistance : **85 MΩ.km**
- Insulation Resistance at 20°C : > **100 MΩ/km**

## Mechanical characteristics

- Operating temperature: **Static : - 20°C → + 80°C**

- Minimum Bending radius: **Static : 5 x Ø**

- Conform to **RoHS directive**

- Flame retardant according to IEC 60332-1
- Halogen rate and corrosiveness of combustion gas according to IEC 60754-1 and 2.
- Smoke density according to IEC 61034-1 and 2.
