

P/N : ECONN6FS8

Tooless fully shielded CAT6 RJ45 keystone jack

Descriptions

The ECONN6FS8 fully shielded keystone jack, has excellent electrical performances with very good headroom. The termination through a back cap allows an easy and a high quality termination thanks to clear and visible color coding. The low depth ensure a bug compatibility with a big part of mounting box.

Generality

Performances	Compliant to ISO 11801 Ed2 & EIA/TIA 568-C.2
Shielding	360° shielding - ZAMAC
Termination	Tooless through a back cap

Propriety

Mechanical

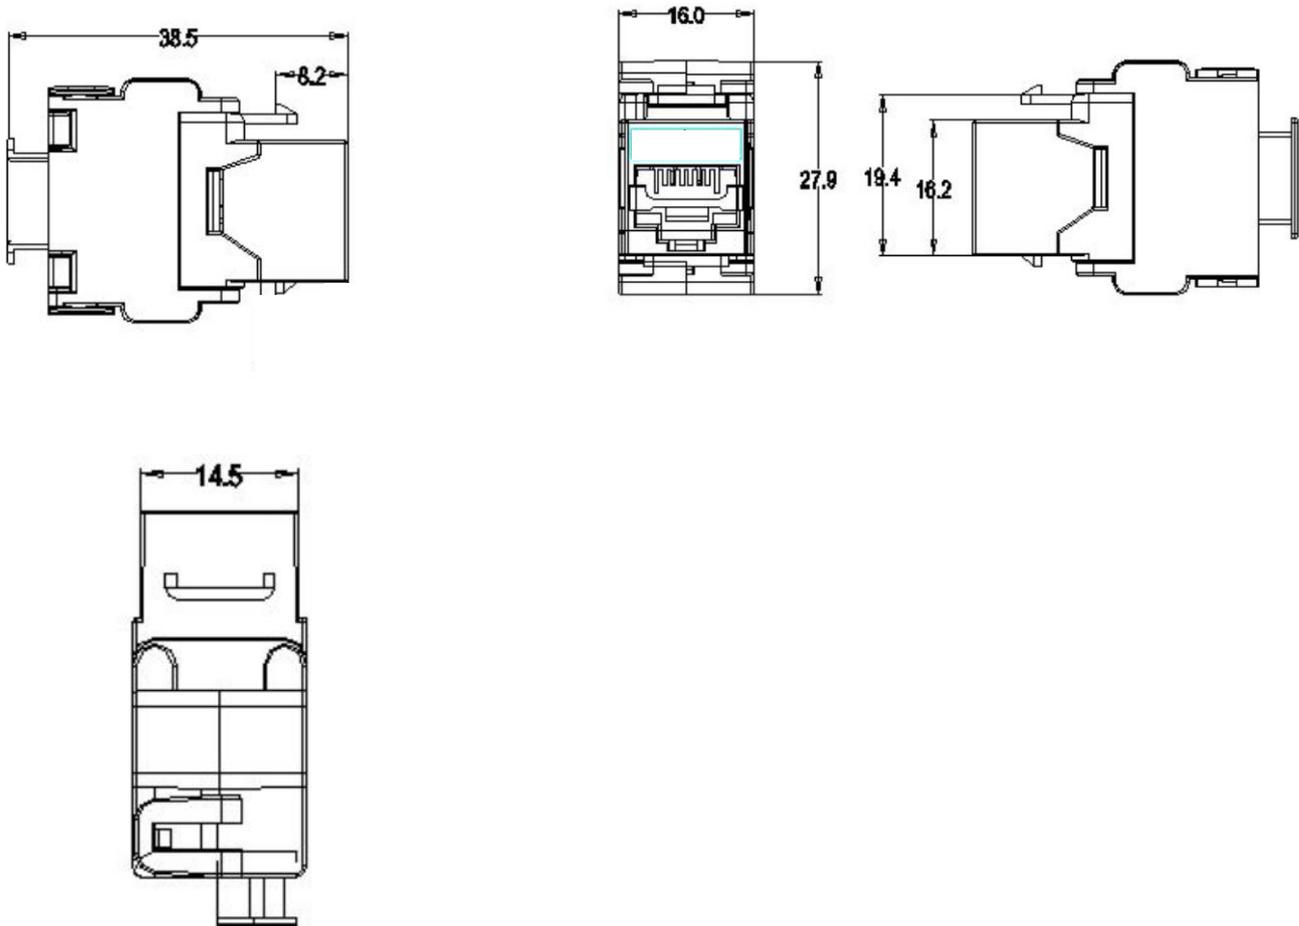

IDC	Nickel plated over phosphor bronze
Contact	Gold plating over bronze platine
Body	Zamac 360°

Contact resistance	$\leq 20\text{m}\Omega$
Insertion cycle	750 cycles

P/N : ECONN6FS8

Tooless fully shielded CAT6 RJ45 keystone jack

Dimensions

Ordering information

Part number	ECONN6FS8
Designation	Fully shielded CAT6 RJ45 keystone jack eCONN range
Packaging	8
