RAL7016

650Kg

42U

800x600
800x800
800x1000

+ BENEFITS

- Loading capacity up to 650Kg
- Double glazed front door for a better access to the cabinet
- 4 front and rear mountings 19"

DESCRIPTION / APPLICATIONS

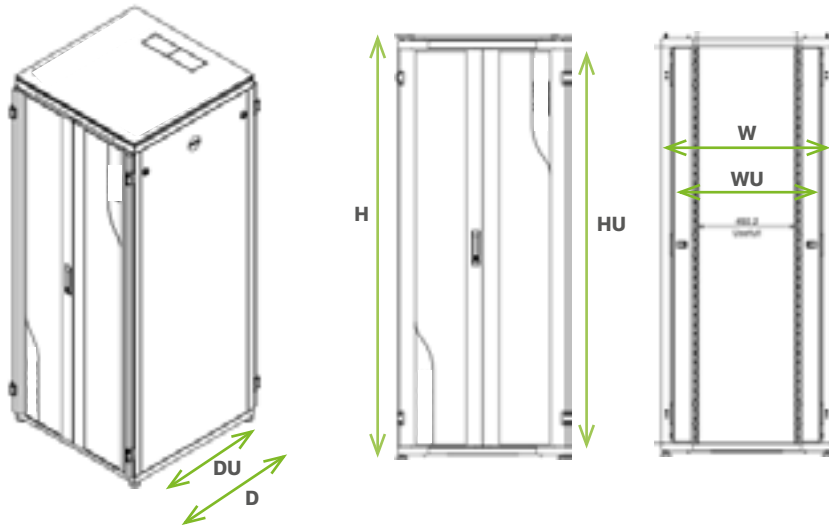

STRONG MECHANICAL STRUCTURE

- Frame 20/10 thickness offers an excellent stability to the cabinet even in the case of maximum loading
- 3 reinforced bars to offer a loading capacity tested up to 650Kg

- Equipped roof with perforation for natural ventilation and pre cut entry to offer access to inside the cabinet
- Reinforced roof to avoid any steel distortion
- 4 19" front and rear mountings, 20/10 thickness
- Hole management cable available associating ACRINGS6 patchcords
- Numbering of U in the two ways : cabling is easier if you start from top or bottom
- Adjustable mounting depth
- Double glazed front door
- Front doors with key lock
- 270° opening of door for a better cabinet accessibility
- Quick release side and rear panel with 1/4 turn (without key)
- Rear panel
- Empty base for full access inside the cabinet
