

**REF: MMCLOCK451C**

45x45 locking faceplate 1 connector-MMC range.

## Descriptions

The MMCLOCK451C is a locking faceplate in order to give a first level of physical security. The locking dust shutter will avoid any insertion of object which can damage the contact of the connector.

The design of the MMC faceplate will offer to your installation a discrete integration of the outlet point.

- Style : French style 45x45
- Equipped with a large label holder protected by a flapping window.
- Easy locking system
- Unlocked system without any special key
- Hang system with high density: 12 fixing points
- Material Polycarbonate
- White RAL 9003
