REF: MMCPAN1U

19'' patch panel 24 ports 1U – MMC range

Descriptions

The MMCPAN1U patch panel is an innovative panel with a modularity of the rearmanagement block which allows a perfect management of the bundle cable.

- Patch panel 24 RJ45 ports – 1U
- Unpainted panel: stainless steel 20/10 for an automatic grounding

- **Innovative rear management cable**

- Rear part equipped with 3 independent and rotative management cable block.
- Management cable block in polycarbonate
- Blocks composed with wings in polypropylene in order to fix the cable without cable tie.
- Stripes to maintain the cable and ensure a good RL.
